EXPERIENCE

SOFTWARE ENGINEER

Bundo Tech

Jan 2025 - Present

- Built responsive UI components and UI mockups into production-ready features with seamless frontend-backend integration.
- Contributed to full-stack development including authentication flows, architecture decisions, and feature delivery to enhance platform functionality.

FREELANCE FRONTEND DEVELOPER

Solvaafrica – Ed Tech App

Jan 2026 - Feb 2026

- Configured an Expo app to run seamlessly across Android and web from a single codebase.
- Converted UI mockups into responsive production-ready screens and implemented new features.
- Maintained cross-platform consistency and contributed to the app's frontend architecture.

BACKEND DEVELOPER

Osai Technology

April 2025 - July 2025

- Developed Aigbogun Hospital website using React.js and Tailwind CSS from scratch
- Contributed to StylistMi web app backend and collaborated on frontend interfaces.

FREELANCE BACKEND DEVELOPER

Dryklin – Laundry Management App

July 2025

- Integrated push notifications using Firebase Cloud Messaging to enable real time updates.
- Fixed backend bugs and modified business logic to improve order flow, user experience and reliability.

BACKEND DEVELOPER (Intern)

Waste Flip

September 2024 - Jan 2025

- Collaborated on backend logic for waste scheduling, billing, and user access control.
- Used NodeJs and Express JS to build and deploy scalable APIs.

BACKEND DEVELOPER (Intern)

NDF

August 2023 - Jan 2024

- Built and tested REST APIs, improving performance through debugging and optimization.
- Gained hands-on experience in server-side development and database management.
